

Aquatizer QZ-240 received the Innovation Award at the 25th Meeting of the Polish Society of Physiotherapy

At the 25th Meeting of the Polish Society of Physiotherapy held in Poland from September 21 (Thursday) to September 23 (Saturday), 2017, Minato Medical Science's Aquatizer QZ-240 received the Innovation Award issued by the event's organizer.

The 25th Meeting of the Polish Society of Physiotherapy is one of the largest events in Europe that exhibits the latest devices in the fields of diagnosis, treatment, and rehabilitation. The meeting, which has participation from 224 companies from around the world, features conferences, seminars, and events on physical therapy and is attended by more than 7,000 visitors comprising specialists from various fields, including physicians, physical therapists, and representatives of wellness centers and sanatoriums.

With the full-fledged cooperation from HAS-MED, its local distributor, Minato Medical Science presented the massage bed Aquatizer QZ-240.

In addition to the "floating sensation" distinct to waterbed-type devices, Aquatizer QZ-240 is equipped with a range of functions and features, including powerful stimulation with 2 + 2 nozzles, a foot airbag that provides a stable therapeutic environment, and an automatic height setting that reduces the trouble of medical personnel.

With the product receiving high ratings from both the visitors and the organizers in terms of a positive sense of treatment, comfort, and operability, Aquatizer received the Innovation Award. Aquatizer QZ-240 will continue delivering healthy solutions to people across Europe.
