

Japan, a world leader in longevity. Engaging in physical exercises and muscular training from an early age onward, when a person is healthy, is considered important for extending his or her healthy life years. However, elderly people often find muscular training "tough and painful" and "not enjoyable." Therefore, Minato Medical Science proposes the concept of "Training & Relaxation" to make it easier for elderly people to continue difficult muscular training.

Minato Care Station, a rehabilitation facility run by Minato Medical Science

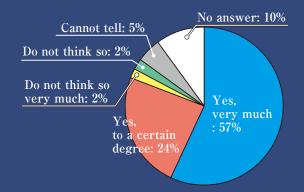

Findings of a questionnaire survey conducted on 58 Minato Care Station users More than 80% of the users said that the Dry Hydro Jet Massage Bed motivates them to continue training.

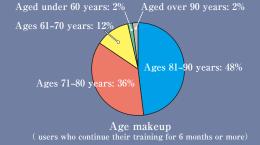

Does the Dry Hydro Jet Massage Bed help you to continue your exercises?

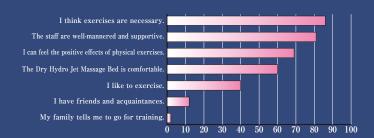

Among the 58 Minato Care Station users, 46 (79%) will continue to undergo training for 6 months or more.

It is noted that 84% of the users who continue their training for 6 months or more are aged between 71 and 90 years.

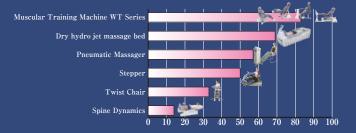

Why are they able to continue training?

Which equipment are you satisfied with? (Multiple answers are acceptable)

WTS-i series Weltonic MINATO MEDICAL FITNESS MACHINE

A single card for all four machines

Major settings recorded on card
